 www.skyblue.co.rsSKY SPORT STUDENT 01-01-00-0000

STUDENT is the most up-to-date device for training your students. With the adequate or the most appropriate choise of the canopy you can certainly achieve the best results in training.
STUDENT as well as the other systems SkySport has been designed in the tone of the most up-to-date systems in the world with the unique uni-body construction, the superior protection solution of the pins, the unique design of the protective cover for the main parachute together with the unique design of the cover-holder of the reserve parachute risers. The interior cover-holders of main risers with the interior deflectors are standard because of the greater safety of extracting no matter what the position of the student's body is. Also, the choise of the multiple way of activating is present in accordance with the needs of practicing and expirience. The adjusting system of harness is optional. Security RSL and the standard installation for AAD (Cypres, Vigil) on reserve, and, for main parachute (KAP3/ASP5) are available.
